# THE AMERICAN RESCUE PLAN ACT

A summary of selected sections providing possible funding for San Diego and Imperial County nonprofits and others involved with health, wellness, education and the social determinants of health

# OVERVIEW

### In general, the plan:

- Provides \$20 billion to establish a national COVID-19 vaccination program that will boost the administration and distribution of vaccines.
- Provides \$51 billion to scale up COVID-19 testing, contact tracing, and mitigation, including \$1.75 billion for genomic sequencing to better track virus variants.
- Extends \$300 per month unemployment enhancement benefits through September 6, 2021.
- Exempts up to \$10,200 of unemployment benefits from taxable income that will help prevent surprise tax billing on struggling Americans.
- Includes \$28.66 billion for the hardest-hit restaurants and bars through a new Restaurant Revitalization Fund program at the Small Business Administration (SBA)
- Helps small businesses and nonprofits through enhanced investment and eligibility for the Paycheck Protection Program (PPP

The American Rescue Plan Act of 2021 became law on March 11, 2021. The purpose of the act is to speed recovery from the economic and health effects of the COVID-19 pandemic and the ongoing recession.

This document provides a summary of each of the relevant sections of the Act to help nonprofit organizations, health organizations, educational organizations and others who might benefit from funds made available by the American Rescue Plan Act. A brief summary of the amounts that have been allocated to San Diego and Imperial counties is also included (Appendix A).

A number of sections were deleted because they did not appear to have a grant process. Not included are funding for housing, including rental assistance and mortgage assistance, and business and employee assistance funds, including unemployment and paycheck protection elements. These categories are widely publicized by business associations and governments. In addition, funding for government agency operations (i.e., the White House, CDC, etc.) and legal elements such as tax law changes, are not included because they do not offer the possibility for funding.

## How to Use This Document

There are two ways to use this document:

- Search by keywords for specific information (i.e., nonprofit, homeless, etc.).
- Scan the document quickly, looking at the bolded headline describing each section.

Each section from the legislation has been synthesized and summarized to show the following:

- Amount
- Eligibility
- Source
- Uses
- Note (if needed)

Some grants will refer directly back to the federal funding agency. Others will suggest that grants will go to a state, local or regional government agency. The challenge is to determine which of those agencies received a grant and if they, in turn, are offering grants through their organizations. This will likely create the need for additional research by nonprofits and others seeking those grants.

#### **Alliance Healthcare Foundation**

Alliance Healthcare Foundation (AHF) advances health equity in San Diego and Imperial counties through strategic grantmaking, impact investing, catalyzing innovation, community collaboration and advocacy. Guided by the belief that all people have a personal desire and basic human right to be well, AHF strives to reduce – and ultimately eliminate – disparities across all social determinants of health. We do this by undoing the root causes in society that benefit some over others; addressing immediate needs with a robust safety net that can help people in their times of greatest need, and investing in lasting solutions in the form of scalable and sustainable innovations that can transform long-term outcomes for communities experiencing the greatest health inequities. ### **About Imperial Valley Wellness Foundation**

Imperial Valley Wellness Foundation, established in 2019, was created to help address a critical health funding gap in Imperial County, whose population suffers from shocking health and environmental problems despite the county's importance to our nation's food supply and clean energy goals. The new foundation was created specifically to tackle the county's health inequities. Please visit: www.ivwf.com
